

Welcome to Military Spouse Jobs!

Who benefits from Military Spouse Jobs? We are deeply intertwined with military life, whether by birth, oath, or marriage. At Military Spouse Jobs, we have developed the nation's premier nonprofit focused on placing military spouses in jobs that offer livable wages. Our comprehensive training programs and lifelong career progression services support all military spouses, dependents, caregivers, widows/widowers, and Gold Star family members. We pride ourselves on serving our global community of U.S. military spouses without judgment.

Founded in 2004, we are the most experienced military spouse nonprofit in the nation, with a global outreach. We have consistently filled the gaps in services not provided to many of our nation's military spouses. That's where we come in; all military spouses, regardless of their status, are eligible for our lifelong services.

Since our inception, we have shattered barriers of unemployment and underemployment for military spouses in ways unmatched by civilian or government employment programs. Military Spouse Jobs offers one of the most successful training platforms, specifically designed for military spouse career seekers.

Our strong collaborative spirit at Military Spouse Jobs stems from our belief that collective efforts lead to better outcomes. We aim to provide essential income to military homes, thereby boosting the economies in the communities where they are stationed.

Reaching over 1.5 million military family members annually, we offer training webinars and a pioneering 24/7 online Learning Management System.

Our innovative case management and applicant tracking system have provided vital insights and solutions to the job market challenges faced by military spouses daily.

Through Military Spouse Jobs, we strive to ensure that military families do not face food insecurities, homelessness, domestic violence, or the severe impacts of unemployment. We empower military spouses to earn a lifelong income, one job at a time.
